Nova Dubovik,

I would like to submit the attached materials for an advanced appeal of a GRAMA request denial. We have reason to believe [redacted] was involved in an altercation with police officers at his home last February, where he may have assaulted an officer and then was subsequently tazered. Even though he pleaded guilty to a reduced charge, we as a media organization believe it is of public interest for us to review the officer bodycams. As we have stated before with Kaysville City, we would be willing to blur the faces of anyone other than [redacted] and the officers, as we understand that there were potentially juvenile bystanders at the time. We would appreciate the State Records Committee's consideration in this matter. Thank you.

Subject: RE: Further appeal of attached GRAMA denial

Maria

Mr. Anderson,

Thank you for your email and well-reasoned argument regarding the disclosure of this body cam footage. The primary difference in this case vs. that cited is in this case there are various third parties involved, some of whom may be minors. Disclosure could violate their individual right of privacy. I believe this to be a "clearly unwarranted invasion of personal privacy".

I believe the denial is defensible and would prevail on appeal. However, Kaysville City is happy to release this footage upon losing such appeal with the state ombudsman's office - which is my understanding of the next level of appeal in this case.

Thank you for your understanding. If I can further clarify our position do not hesitate to reach out again.

Shayne
